# Chopper Blade Renovator

Our Chopper Blade units help prevent water runoff and ensure your land keeps the water it needs to prosper. Our units are equipped with Hardox 500 steel blades with a standard thickness of 1/2" x 6" x 8" - with an upgrade to 3/4" x 6" x 8" available.

Drums come with 1/2" thickness with a 3" axle in 4140 steel extended throughout the drum. Drum sizes include 30", 36" and 42" options.

All units include a heavy duty frame with a spiral blade design and come equipped with a swivel or tongue hitch. We offer triple drum unit configurations as well.

**All of our units are customizable with additions available, including seeder packages and custom colors.**

Chopper Blade Unit
