# Tandem Drum Renovator

Our Tandem Drum units were built to tackle larger properties allowing you to cover twice the ground in half the time! Our units are equipped with Hardox 500 steel blades with a standard thickness of 1/2" x 6" x 8" - with an upgrade to 3/4" x 6" x 8" available.

Drums come with 1/2" thickness with a 3" axle in 4140 steel extended throughout the drum. Drum sizes include 30", 36" and 42" options.

All units include a heavy duty frame with a spiral blade design and come equipped with a swivel or tongue hitch. We offer triple drum unit configurations as well.

**All of our units are customizable with additions available, including seeder packages and custom colors.**
